

Bay and Bow

Viwinco Brand Windows

Bay and Bow Windows add dimension, spaciousness, and plenty of light to any room. These windows are also engineered to provide the durability, beauty, and thermal efficiency that you can expect from Viwinco Vinyl Windows.

Appearance

- Choose Cambridge or Strafford hung window styles or Viwinco Casement or Picture windows to match the architectural appearance of the rest of your home.
- Birch headboard and seatboard interior can be painted or stained to match your decor.
- 10-mil vinyl exterior—there is no need to finish the bottom of the exterior

Strength

- Chain suspension system attaches directly to the frame of the house to assure a sound installation.
- Tie rods unite the headboard to the seatboard to provide stability and strength to the unit.
- Vinyl frames are fully fusion-welded for strength, durability and low maintenance.
- Chambered vinyl profiles add structural strength and thermal efficiency.

Thermal Efficiency

- Insulated headboard and seatboard and finished bottom exterior for added thermal performance.
- Each window individually contributes to the insulating performance of the unit.

Options

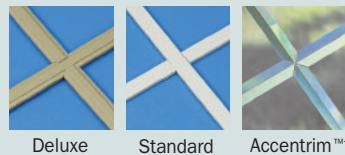

Bay and Bow windows are offered with a variety of options to meet your aesthetic and functional requirements.

Deluxe, standard or Accentrim™† grids are sealed between the glass for easy cleaning.

Glass choices include Solarban® 60* Low-E glass, clear, gray tinted, bronze tinted, obscure, or tempered depending on the individual windows chosen.

Oak veneer head- and seatboard are available.

Available in white or tan vinyl.

Bay and Bow Combinations

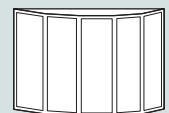

Transform your house by bringing more daylight inside. There is a wide range of sizes and operable/fixed configurations for new construction or customized for an exact replacement. Select a bay or bow made from Cambridge hung-style windows, Strafford hung-style windows, complementary Casement windows or complementary Picture windows.
